GENERAL OBLIGATION BONDS

General Obligation bonds are secured by a pledge of the full faith, credit and resources of the State. The principal and interest amounts are transferred one year in advance from the General Revenue Fund to the debt service funds from which principal and interest payments are made. Three types of general obligation bonds are currently authorized. The last payments were made in December 2022 and there are no general obligation bonds outstanding.

Water Pollution Control Bonds

The Board of Fund Commissioners is authorized by constitutional amendment to issue \$725,000,000 in Water Pollution Control general obligation bonds. Of this amount, \$130,505,760 of constitutional authority remains. These bonds are issued, upon approval of the General Assembly, to provide funds for State use to protect the environment through the control of water pollution. The principal and interest on these bonds are paid from moneys transferred from the General Revenue Fund and the Water and Wastewater Loan Revolving Fund to the Water Pollution Control Bond and Interest Fund. The Board began issuing Water Pollution Control Bonds in 1972.

Stormwater Control Bonds

The Board of Fund Commissioners is authorized by constitutional amendment to issue \$200,000,000 in Stormwater Control general obligation bonds. Of this amount, \$155,000,000 of constitutional authority remains.
